

MAER*Charme*  
semiprecious stones

Part of the nature's repertoire, these stones are exceptional raw masterpieces, admired and appreciated since ancient times, been classified by their gems under the renowned name of semiprecious stones.

Created in nature's mysterious laboratories, over many thousands of years, these stones are just one of the sources forms where the absolute beauty originated. Their structure is a perfect architecture of small crystals coming in an infinite array of colors and depths.

These semiprecious stones expressing the essence of elegance, class and beauty, are the ultimate touch of perfection for any interior, from classic to modern, from romantic to contemporary... Touches of gold and silver, a large choice of textures and colors expand and enhance their ability to fit any interior or design.

We can create unique, exclusive pieces with any dimensions and also a variety of applications including kitchen & bathroom surfaces, work surfaces, counter tops, floors, walls, furniture, special features and more.

We pride ourselves in the fact that all our products are handmade and possibility of our client to supervise the building process. This way we are sure that MAER Charme quality and design will exceed your expectations and you will have already established a personal relationship with the product.

Our production standards are centered around the careful checking of raw materials, so we offer the best available on the market. Some of our standards include: dimensions, color / shine, crystallization and no impurities.

*Supremely, elegant and refined,  
are just a few words to describe the floating and resistance.*

INSERTS

agate atena with gold

obsidian black with silver

quartz yellow with ammonites

obsidian black with swarovski crystal

quartz white with swarovski crystal

obsidian black silver with gold

The balance between nature and creation is defined by form, utility and beauty, as a result of imagination, vision and mission in shaping the final work. Each idea represents a combination of the skill and endeavor, time and transformation. Design of evolution, of past and contemporary is shaped on the surface of each creation.

Magnificent and brilliance are the principles of creation and statement, while longevity and immortality are the secrets of achievement.

- We can inlay between stones different materials as Gold, Silver (imitation or real), Stainless Steel, Brass, Copper, etc.
- We can inlay also ammonites with diameter between 4-25 cm.
- We can apply Swarovski crystals in any shape, color and dimensions, pearls, etc.

Maer Charme is proud to introduce itself as the world's first and only manufacturer in the industry of semiprecious stones that offers leather finish. The stone finishing is an important factor for the final appearance of the stone, for its final destination and placement according to project and at the same time it influences the functional purposes such as durability and increases the pores and increases the performance of the work surface while introducing slight textures. Each piece presents an unique character and it is our goal, through dedicated and rigorous service, to cherish the beauties of nature and to provide the utmost level of customer satisfaction, while going back in time and share them with our clients.

- We are the only ones in the world that produce semiprecious stone with multiple types of surfaces: Glossy but Honed (matte gloss) or Leather Finish (brushed), even antislip.

## CUSTOM PRODUCTION

- We are making all sizes from small up to 315x180 cm. We can produce any dimensions, on customer's request. We can provide pieces according to the project, custom made and special designs (leaves, flowers, butterflies, dragons, etc). This means there is no material loss, the price includes only the required surface and no scrap. We produce optimal sizes, to minimize losses on cutting, for each individual project.
- Execution standard thickness is 2 cm, but we can also produce other thicknesses, 3 cm, 1.5 cm, 1 cm or pieces with thickness of 6 mm.
- We can recompose on various supports: glass, honeycomb, granite, acrylic, etc.
